IT - RIVESTIMENTO DECORATIVO EFFETTO RUGGINE

RUST.IT è uno speciale rivestimento decorativo effetto corten composto da resine acriliche gel, speciali cariche ed inerti in dispersione acquosa. RUST.IT è composto da una base grigio scuro (CORTEN) tinteggiabile in nove diversi colori e una base rame (RAME). Per ottenere una finitura ossidante utilizzare RUST.IT ATTIVATORE che ha lo scopo di attivare l'effetto ruggine-corten.

Dopo aver ottenuto la finitura desiderata, utilizzare il RUST.IT TOPCOAT, per arrestare la naturale ossidazione della ruggine e proteggere la superficie. RUST.IT è adatto per superfici interne ed esterne, in muratura, intonaco, calcestruzzo, cartongesso purché ben aderenti al supporto e adeguatamente primerizzate e preparate.

JP - 錆び系デコラティブコーティング

RUST.IT(ラスト イット)は、ゲルアクリル樹脂、特殊充填剤、水分散型骨材を主成分とした錆の表現が可能な内外装用特殊装飾仕上げ材です。

RUST.IT(ラスト イット)は、9色のカラーに着色可能なダークグレイ(原色を含む全10色)と銅(銅1色)の全11色展開です。

RUST.IT ATTIVATORE(ラスト イット アクティベーター)を使用することで、錆の効果を活性化させ、酸化仕上げを行うことができます。お好みの仕上がりになった時点で、錆の自然酸化を防ぎ、表現保護をするためにRUST IT. TOPCOAT(ラストイット トップコート)を使用してください。

RUST IT. は、石材、石膏、コンクリート、石膏ボードなど様々な下地に施工可能です。施工要領に従い、適切な下地処理を施した後にご使用ください。

RAME

EN - DECORATIVE COATING RUST EFFECT

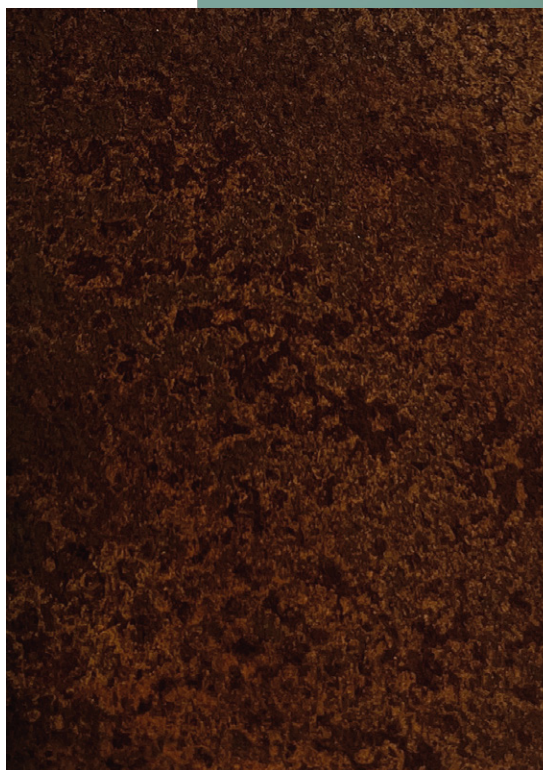

RUST.IT is a special decorative coating with a corten (rust) effect finish based on gel acrylic resins, special fillers and aggregates in water dispersion. RUST.IT is composed of one dark gray base (CORTEN) that can be tinted in nine different base colours and one copper base. To achieve an oxidizing finish, use RUST.IT ATTIVATORE, which has the purpose of activating the rust-corten effect.

After achieving the desired finish, use the RUST.IT TOPCOAT, to stop the natural oxidation of the rust and to protect the surface. RUST.IT is formulated for use on internal or external surfaces in masonry, plaster, concrete, plasterboard as long as they adhere well to the substrate and are adequately primed and prepared.

CN - 鏽效裝飾塗料

RUST.IT 是一種能夠呈現耐候鋼(鏽)表面效果的裝飾性塗料，這種效果奠基於凝膠壓克力樹脂、特殊填料以及水性聚合物。RUST.IT 包含一款深灰色基底(耐候鋼)，此基底可調配成九種不同基礎顏色，以及一種銅基底。若想讓表面鏽化，請使用能夠激發鏽化耐候鋼效果的 RUST.IT ATTIVATORE。

製作預期的表面效果後，請使用 RUST.IT TOPCOAT，就能避免自然生鏽，進而保護表面。RUST.IT 的配方適用於室內或室外牆面，包括磚牆、灰泥、混凝土、石膏板等；只要基材緊密地附著在牆面上，並且完成打底、準備妥善，即可使用。

CORTEN

RUST.IT

1 BASE CORTEN/RAME

CORTEN 6-9 m²/L
RAME 9-12 m²/L in 2 coats

20-35% of water

Short hair roller

Brush

2 ATTIVATORE

8-10 m²/L in 2 coats

Short hair roller

Brush

Spray

3 TOPCOAT

9-15 m²/L in 2 coats

5-10% of water

Short hair roller

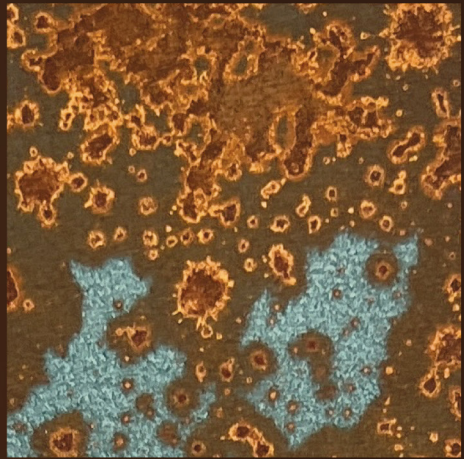

Brush
